GENERAL ORDER.

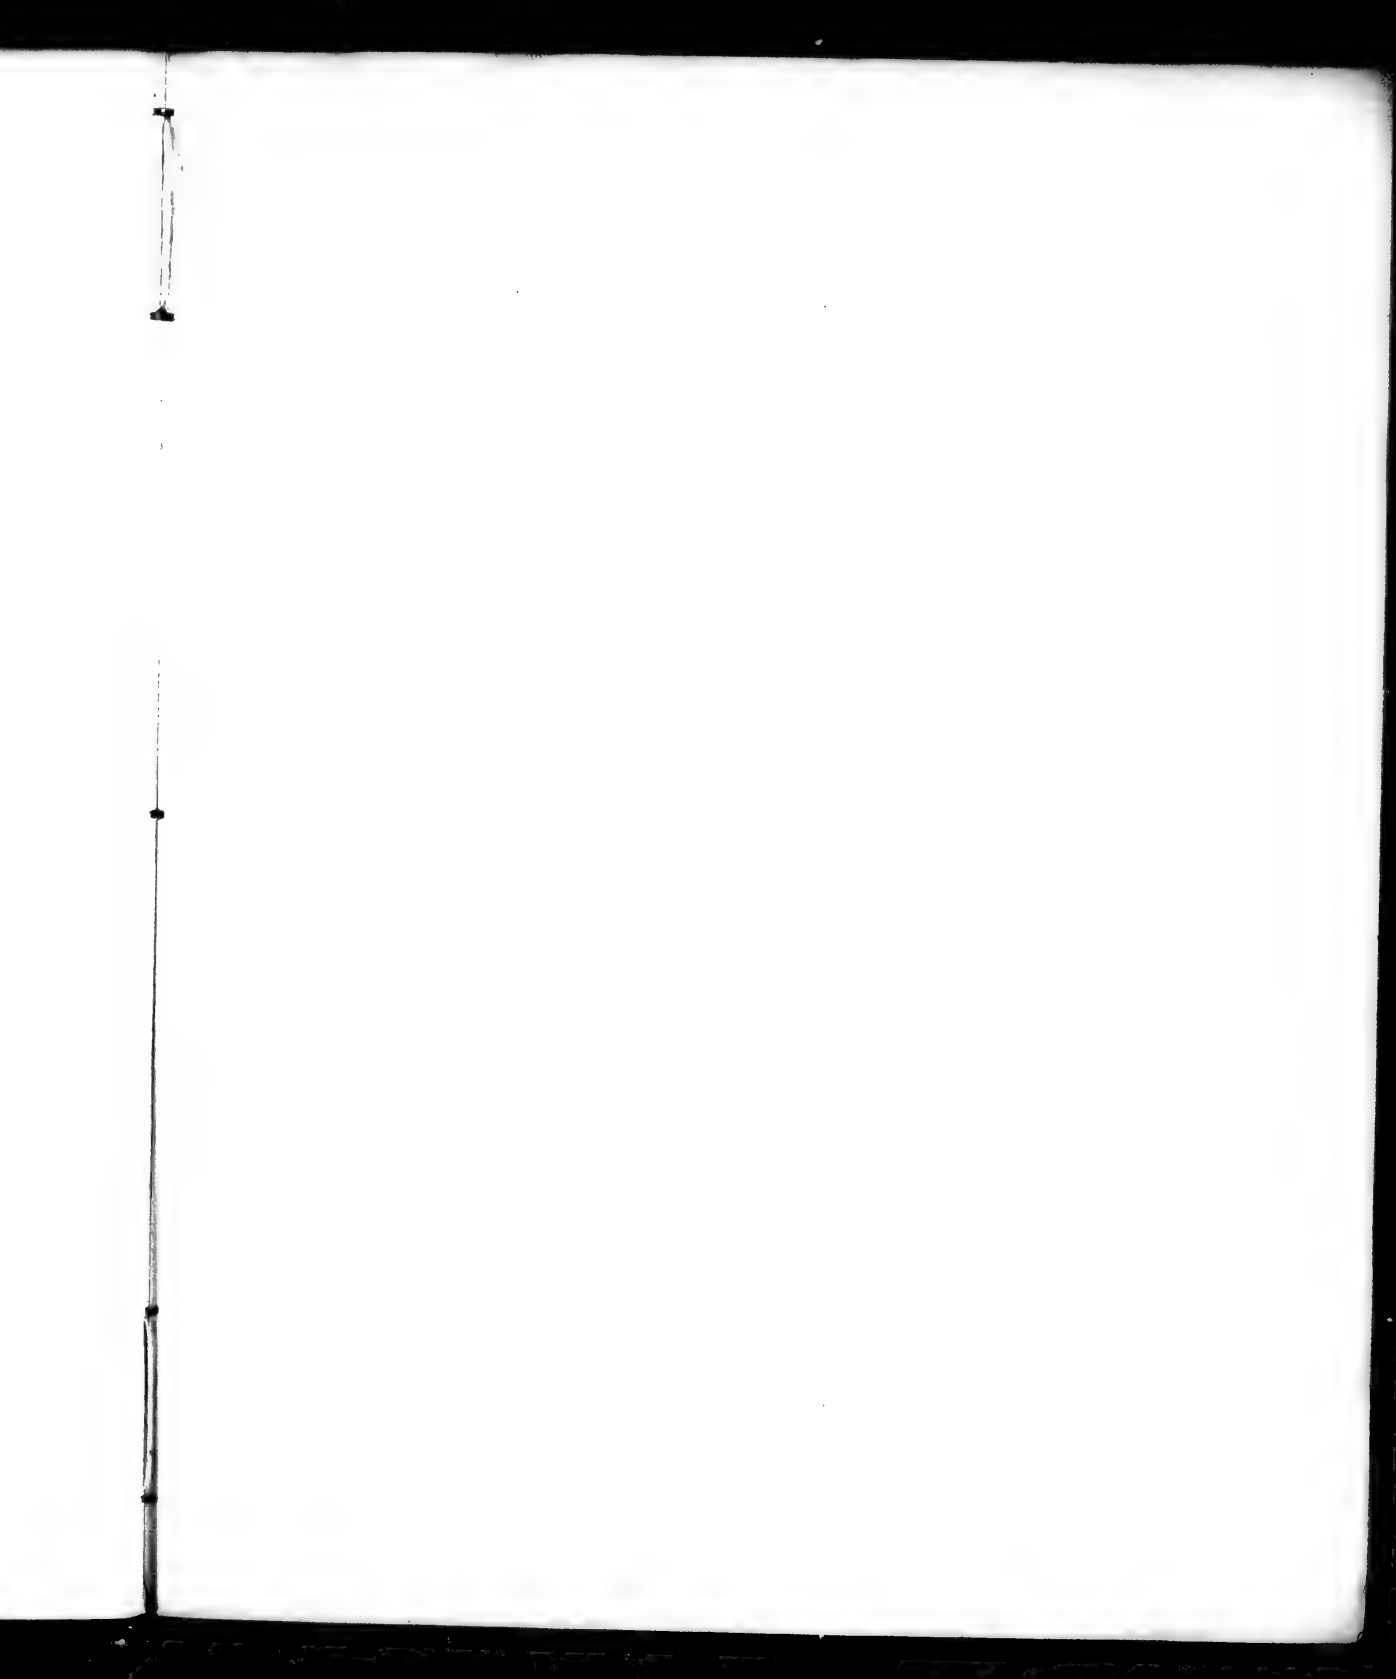

For the general convenience of the several Garrisons in Upper and Lower Canada, and in order to afford a better facility of reference to Individuals concerned, and for the examination of the Public Accounts, His Lordship the Commander of the Forces, upon the recommendation of the Commissary General, has been pleased to approve of the promulgation in General Orders of the annexed condensed Schedules of Pay and Allowances authorized to be issued in this Command, and which will supercede the necessity of drawing up the Annual Establishments. Printed Copies of these Schedules will be furnished to each Corps and Department, and all future alterations or appointments must be notified in General Orders, as the authority upon which they are to be carried into effect.

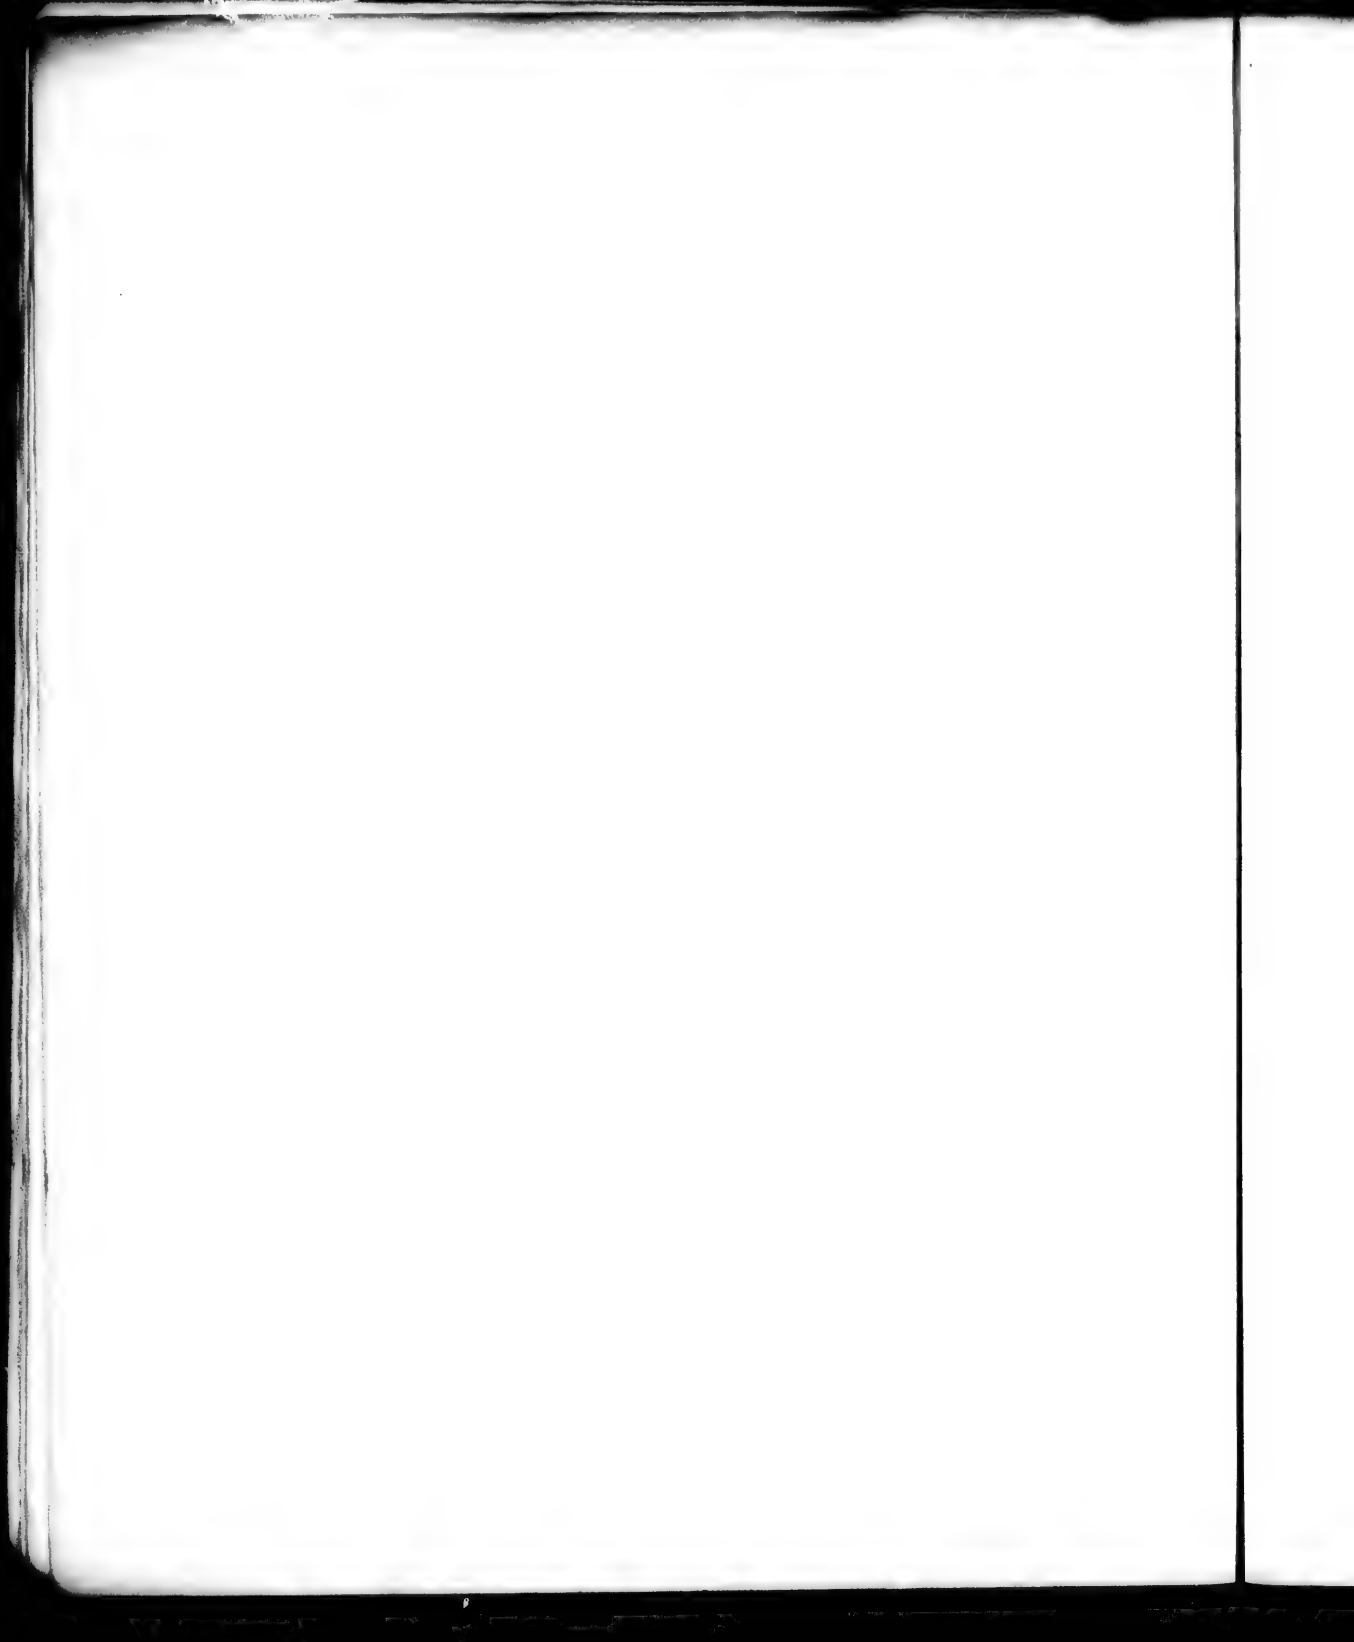

The period of Winter Fuel will commence in future on the 25th instead of the 24th September, and terminate on the 6th instead of the 5th May.

The Staff Pay is issued upon Warrant on the 25th of every second month, but the Pay to the Indian Department and to the appointments in the Military Offices &c. and all Allowances will be issued monthly, on the 25th of each month on printed pay-lists provided by the Commissariat and filled in by the respective Departments, under the signature of the senior Officer, which pay-lists are to be transmitted to the Commissariat Office a few days previously to the 25th for examination, so that there may be no delay in the payment.

This Order to have effect from the 25th August, 1828.

SCHEDULE, No. 3.

FORAGE.

With a view of determining at a fixed period and upon one principle the pecuniary rate at which the Ration of Forage is to be paid for, the Commandant, and the Senior Officers of the Quarter Master General and Commissariat Departments at Quebec, Montreal, Kingston, and York, will assemble at 12 o'clock, at the Commissariat Offices, on the 15th of June, September, December, and March of each year, and upon due attention to the Market rates, they will draw up a Quarterly Certificate of the rate per ration at which they recommend it to be issued during the following Quarter, commencing on the 25th of those months respectively.

The Certificate at York is to apply to that Station and all other Posts above it, Drummond Island excepted, which being particularly circumstanced, the rate of Forage, approved by the Commandant, is to be continued at that distant Station as heretofore.—The Certificate at Kingston is to apply to all Posts below York in Upper Canada:—and both Certificates are to be subject to the approval of the Major General Commanding in the Upper Province.

The Certificate at Montreal is to comprise the whole of the District; and is, with that at Quebec, to be subject to the approval of the Commander of the Forces.

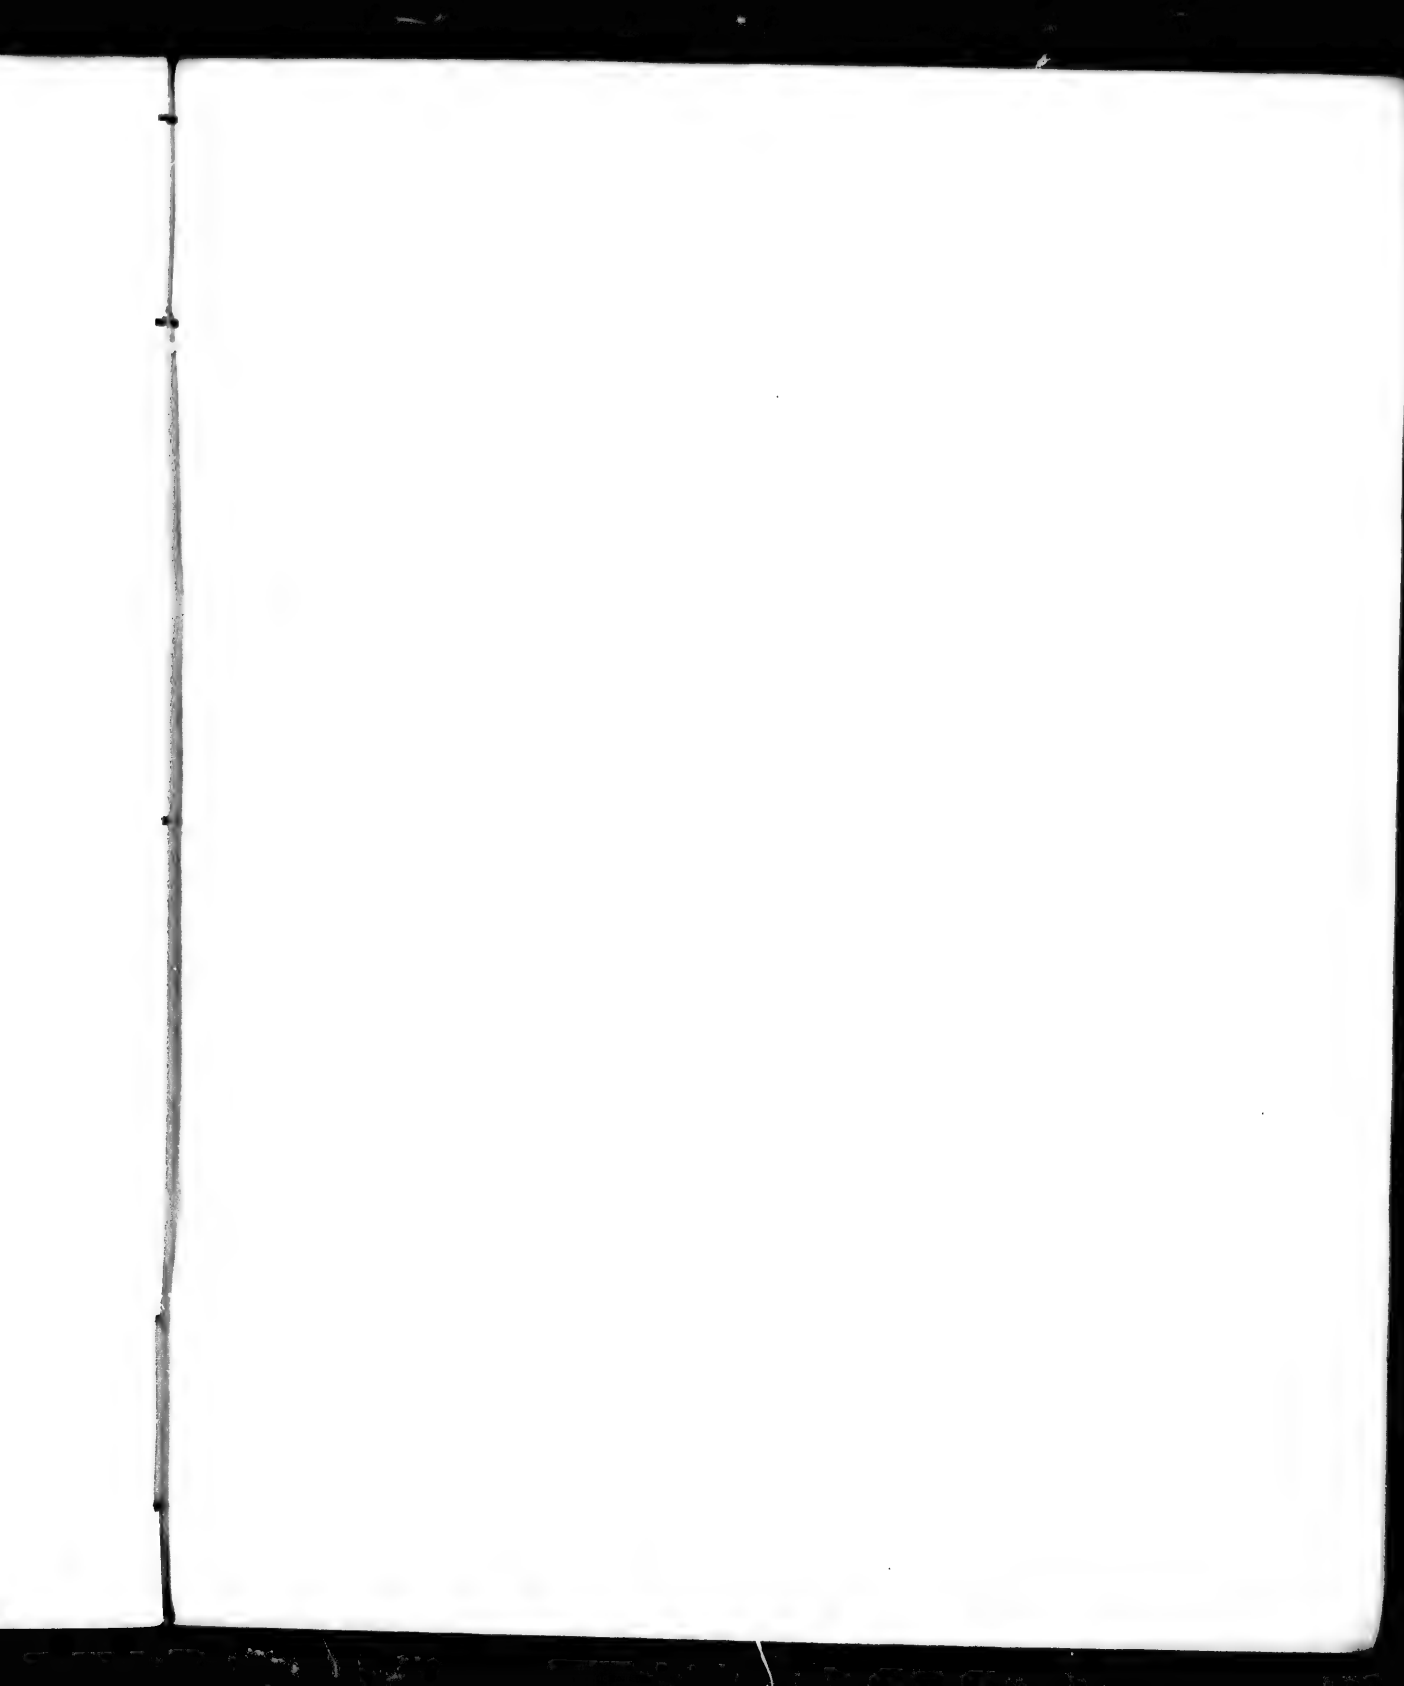

The approved Rates are to be notified in the General Orders of each Province respectively.

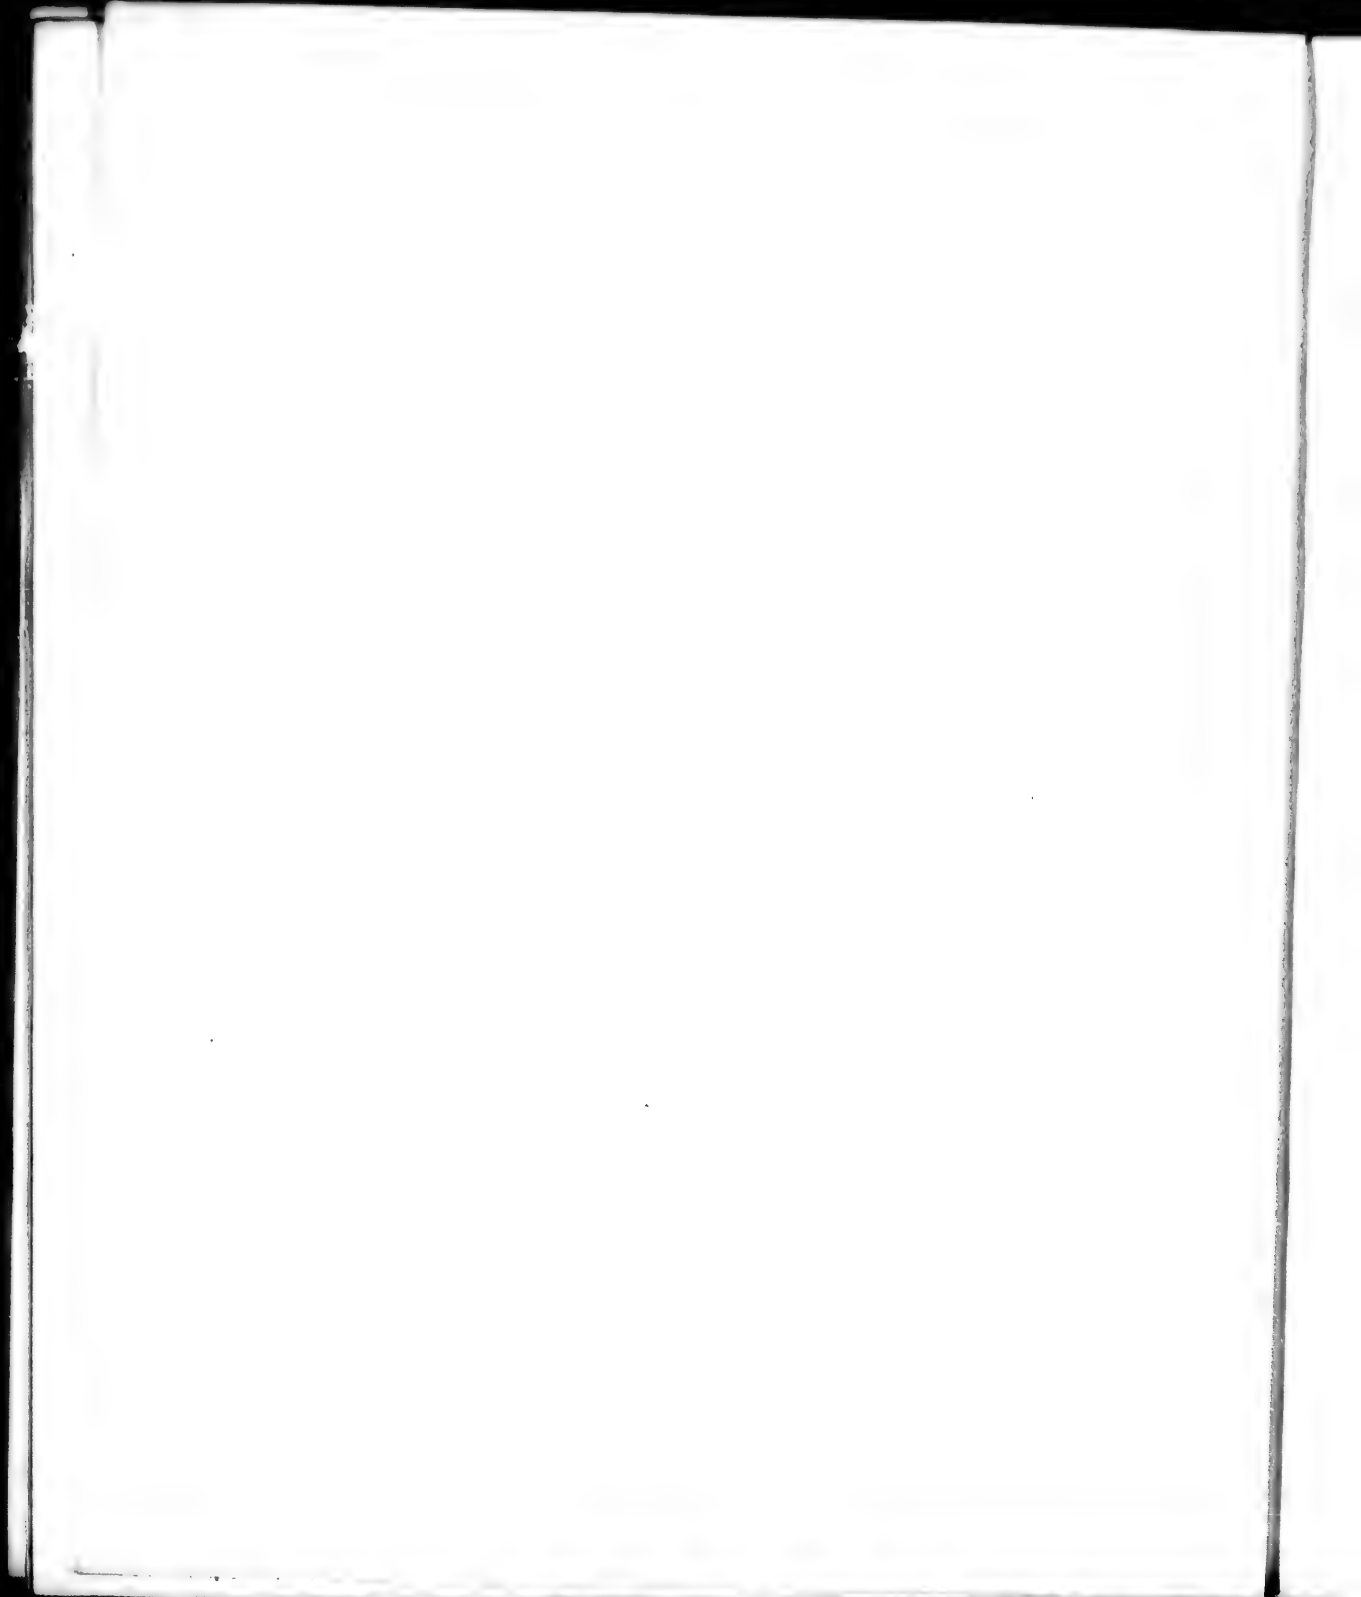

Where there is no Officer of the Quarter Master General's Department, the Senior Staff Officer present is to form one of the Board.

The Commissariat Officer is to lay before the Board the Market Certificates, and the best information than can be procured of the ruling prices.—General Order, 14th May, 1827.
